

## Locomotive Distributed Power Radio Test Kit

Kit 3019-100 includes:

DP Radio Tester 3019-400

Cable 61-92023-113

Cable 61-92023-115

Case 27-1267

Miller Ingenuity is proud to announce the newest addition to the Larry McGee product line, The DP Radio Test Kit.

A simple Green Go or Red No Go LED gives maintenance personnel a clear indication if the *Idle Radio Receive* Signal Strength is within specification.

Test points allow measurement of the voltage level.
