

Locomotive Truck Parts

HIGH PERFORMANCE. RELIABILITY. IN STOCK.

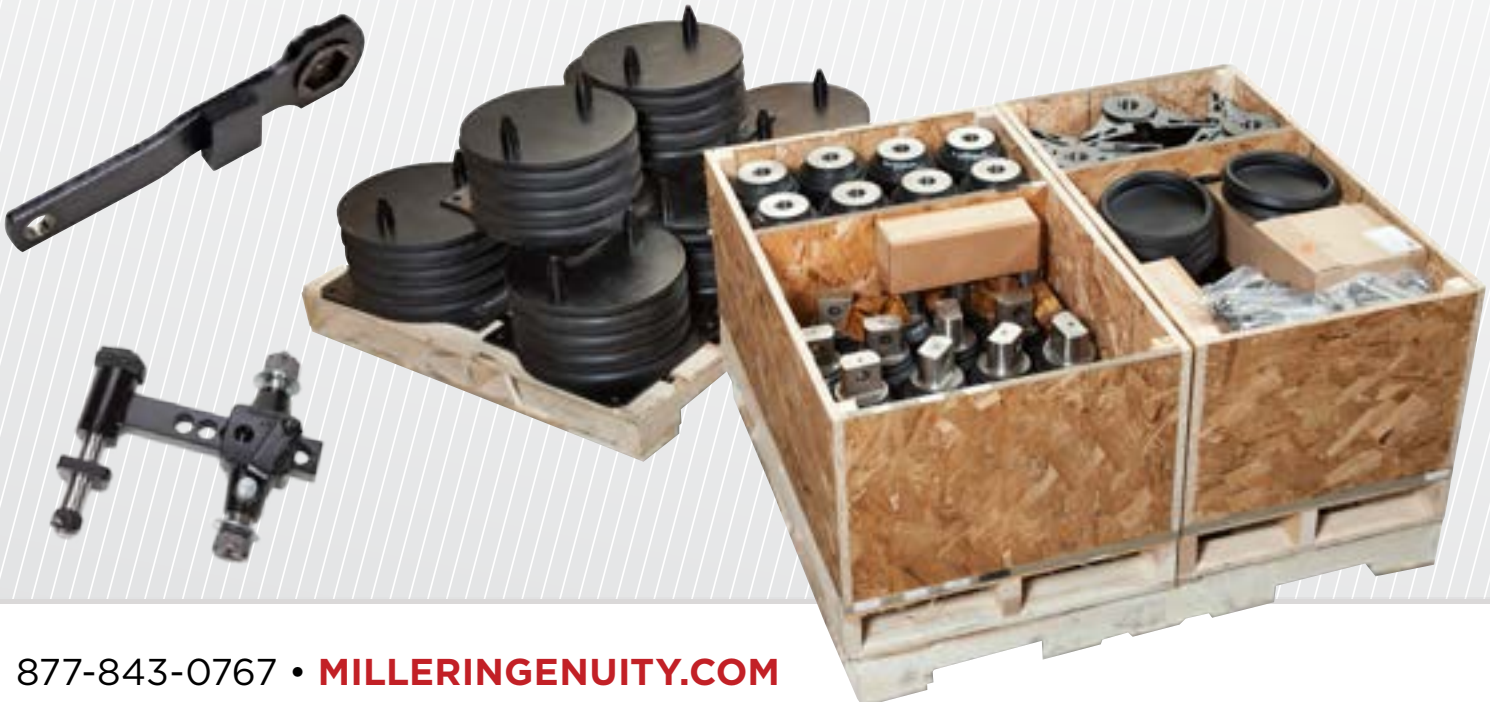

Miller Ingenuity manufactures high performing, long-wearing and reliable truck parts using superior technology and materials that meet the most exacting specifications.

Miller Ingenuity stocks truck parts for most North American locomotive truck styles including components on the newer radial/steerable truck. These include the rubber over

molded bushings, sander guides and more. Kits or parts can be created or customized to suit customer overhaul requirements.

With over 4,000 available parts IN STOCK, Miller Ingenuity can deliver your products when you need them.

Give us a call to see how we can support your truck overhaul needs. We deliver on time.
